Applied Management
Professionals Program

Are you looking to connect with motivated professionals to build a strong government workforce for tomorrow?

The Applied Management Professionals (AMP) Program provides highly-qualified individuals to work side-by-side with you to achieve your agency's top priorities. Take advantage of this rare opportunity to mentor young professionals and integrate a new generation into public service.

Applied Management Professionals Program

M Squared's AMP Program connects skilled candidates with U.S. Federal agencies to help build tomorrow's government. The program addresses the aging federal workforce and supports the U.S. Government's human capital recruiting strategy.

We put our experience to work for you.

M Squared understands that a knowledgeable, professional staff is an absolute necessity to meeting your program mission. Familiar with the challenges of identifying the best candidates, we have a recruiting process that delivers only the most reliable, efficient, and capable individuals to collaborate with today's government leaders. M Squared takes the time to understand your unique requirements in order to match your organization with the most qualified students our nation's graduate schools have to offer.

The AMP Program offers:

- Professional project delivery at an affordable price
- Mature communication skills with sophisticated abilities in facilitating collaboration
- Timely achievement of project requirements
- Concrete, attainable solutions with immediate and long-term implementable recommendations
- Focused client delivery with quality assurance

Exceptional corporate support.

Our Applied Management Professionals (AMPs) work under the direction of an M Squared consultant to ensure superior project delivery. The AMP Program Team is directly engaged with the AMPs and also available to federal clients for quality-assurance.

M Squared also provides AMPs:

- Training in key skill areas including business process design, project management and strategic planning
- Corporate mentors to maximize their professional development opportunities during their internship
- Excursions to the nation's attractions in and around Washington, DC
- Opportunities to network with and learn from senior government executives
